

THE \$0 AI STACK THAT DOES REAL WORK

Five tools, five jobs, zero dollars. What each one is actually for, the real free limits (July 2026), and the workflow that chains them into a content machine.

01

GEMINI – THE BRAIN

GEMINI.GOOGLE.COM

Your everything assistant: writes, codes, reads docs, plans your week. Free tier needs no card. Use it for scripts, ideas, research summaries and first drafts of everything below.

02

PERPLEXITY – THE RESEARCHER

PERPLEXITY.AI

Answers with real sources you can click and verify. Free plan includes unlimited quick searches and about 5 Pro searches a day. Use it before you claim anything in your content.

03

LEONARDO – THE IMAGE MACHINE

LEONARDO.AI

Ad-grade images in your own consistent style. Free plan gives you 150 tokens daily – roughly 150 fast images, every single day. Use it for thumbnails, product shots and post visuals.

04

SUNO – THE SOUNDTRACK

SUNO.COM

Full songs and background tracks from a text prompt. Free tier: 50 credits a day, about 10 songs. Use it for reel music you actually own the vibe of, not the same trending audio as everyone.

05

CANVA – THE DESIGNER

CANVA.COM

Posts, carousels, decks and brand kits without a designer. The free plan covers most solo-creator work, including Magic Write and background remover trials. Use it to package everything above.

THE CHAIN • ONE POST, ZERO DOLLARS

Perplexity: "what is my audience searching about [TOPIC] right now?"

→ Gemini: "write a 40-word reel script from this + a caption"

→ Leonardo: cover image in your style → Suno: 15s background track

→ Canva: assemble the carousel / cover text. Total cost: \$0.00

FREE ≠ TOY

These are the same engines behind paid tools. The limits reset daily – plan around them.

ONE TOOL, ONE JOB

Don't ask Canva to think or Gemini to design. Chain specialists, get pro output.

UPGRADE LAST

Only pay when a daily limit blocks money. Most creators never hit that point.

WANT THE FULL SYSTEM – AGENTS THAT RUN THIS CHAIN FOR YOU?
